

With Our Soldiers and Sailors

TRANSFERS BRYAN HILTY TO A MACHINE GUN CO.

Well, I have been a soldier for nearly three weeks and it sure is one great life, believe me.

We arrived at camp on the 7th of August and a bunch of non-coms met us and lined us all up and marched us out about two miles and all the soldiers along the way would say, "Hep, hep, hep." We finally arrived at the hospital and the doctor looked us over to see if we had any contagious diseases and then we were made to take a bath. It wasn't Saturday night so I took cold, Ha, Ha. Then we were stripped for gym and started through the ropes. There were about 50 doctors. We had to go through out 30 rooms, and talk about examination, it sure was some task. And then the last—well, you have an idea what it was, haven't you? Well, I have heard of snake bites and had them bite me, but that shot in the arm. I thought he ran the needle up in my neck. Then another scratched me on the other arm. I think they call it vaccination and oh, look out. I went over to the personal office to make out my insurance, and about an hour—that shot hit me and I got so sick I was afraid I would die. Then the next morning my arm was swollen up so I was afraid I would die. Gee, it sure was a very unpleasant feeling, but in nine days I was feeling fine and they lined us up and shot us again. And the fellow ahead of me fainted and that did get my goat. But I got through all O. K. I was in the G company of the 8th Inf.—in fact, all six of the Mohave county boys were in it until last Friday. A big fellow came up and called "Hilty" and I thought I was picked to be a kitchen police—that is, clean pans and peel spuds. But, no, I was being transferred to the machine gun company. Oh, gee, that is where you get eight minutes to live in the front line trenches. But, believe me, you don't have to pack a big rifle. I did that for two weeks and I asked the officer when he gave me my gun where the wheels were and I very nearly got court martialed. But he smiled.

One consolation with a machine gun, you sure can get a bunch of those square-headed Dutch. They only shoot 600 shots a minute. There are eight men to one gun and they are good for 64 minutes. Gee, that makes a fellow feel pretty good, doesn't it?

I suppose you miss me at the dances and baseball games. But it won't be

BILL HARRIS AND GEORGE GRANTHAM BACK FOR A VISIT

Donald (Bill) Harris and George Grantham arrived in town Thursday from the naval training station at San Diego and will remain for some days visiting with friends and relatives. Both young men are looking in the best of health and would justify all the claims that they have for the good treatment that Uncle Sam is affording them. All of our young lady friends can see Bill and George at the big dance being given tonight by the Camp Fire Girls.

MEETS HIS DEATH ON ITALIAN FRONT

Mike Sartini, who was called to his old home in Italy by that country's entry into the great war, was killed in a Hun bombing raid back of the lines. He was quite well known in Oatman, where he and a brother, R. Sartini, worked in the mines. Sartini was a citizen of the United States, but the call of his native land and old home ties was too much for him and he had to respond to the appeal of Italy that he aid of all her sons was needed to repel the invaders.

GEORGE I. GIBSON ON WAY TO FRANCE

George I. Gibson, Company F, 27th Engineers, has been transferred to regimental headquarters and is now on the way to France. Gibson expects to receive a commission soon. He is the son of George W. Gibson of Kingman.

long until we will have those square-heads backed off the map. Now, please hurry and write me all the news and tell all my friends that want to know about me that I am going to take myself and a machine gun and bust into Berlin for Christmas. So come ahead and let's all go over the top. I will have to close and go to mess. Write soon. I am as ever one of the bunch, Sincerely,

ISAAC B. (Briney) HILTY.
P. S.—My address: Pvt. Isaac B. Hilty, Mach. Gun Co., 62d Inf., Camp Fremont, Calif.

Of the six boys who left the 5th of August Mensch is in the 8th Inf. Smith is in the 8th Inf., Matthews is in the Signal Corps, Cornwall is in the Mach. Gun Co.

JEROME CARROW WOULD HATE TO HAVE MISSED IT

JEROME CARROW

Jerome Carrow has been across the water for weeks now and says he would not have missed it for a great deal. He writes:

"I am back at headquarters now. We finished the work we were on several days ago and made a very nice job of it. Everyone worked up to the 'rep' we have—and it is very good, for the battalion has made good on all the work they have undertaken. 'The weather is most beautiful here. One would hardly believe it is summer."

"I had a trip across the country the other day and enjoyed it very much. We saw some old towns and the roads and surrounding country are beautiful. 'Don't worry about me over here for I am enjoying it very much and am having an experience I would hate to miss. One can never know if they are not mixed in it."

TRANSFERRED TO ENGINEERS' CORPS

A letter was received by a Kingman lady from Paul Morton who is now in France, in which he states that he saw "Casey" Jonea and many other Mohave county boys there. These men are in the Miner's Engineer corps, to which Mr. Morton was recently transferred. Morton was originally in the gas and flame brigade and billeted with the aviation branch of the service.

CONFINED TO HOSPITAL WITH A BROKEN LEG

Henry Sturzenegger suffered a severe injury at Kansas City some time ago, while enroute with his company from Camp Cody to the eastern coast.

The boys were detained in the above city and were going to a plunge for a bath, and when mounting some concrete steps leading into the plunge building, the officer gave the order to double quick. In responding to the order Henry fell and struck the concrete which resulted in the bursting of his knee cap.

The young man is now confined in the Post Hospital, Ward 8, Leavenworth, Kansas, to which place he was immediately taken after the injury. This injury will likely cause him a permanent disability and his discharge from the army, but Henry and his friends are pulling for something different and it is hoped that his youth will conquer and that he will come forth from the hospital as good as new and be able to rejoin his company in the pursuit of the Boche.

PAUL DICKEY NOW A LIEUTENANT

Paul Dicky, son of Mrs. A. N. Keech of Hackberry, is now a lieutenant in the officers training camp at Camp Lewis, Washington. Mr. Dicky was a resident of Hackberry a year ago but enlisted when war was declared in one of the California contingents.

THE KAISER STARTED SOMETHING HARD TO FINISH, SAYS MOORE

Harry Williams received a letter from James Moore, thanking him for forwarding his Elks' membership card. He said:

"Everything is going nicely here with me. Army life is no hardship on an old 'desert rat.' Get plenty to eat and always have good quarters to sleep in."

"You get more news in the papers at home than I will be able to give you so will not attempt any news stunts. Only this—all the boys at this base are doing their bit and doing it well. The Germans started something when they started this last drive, that they could not finish. I think the allies will finish it for them. The American boys are going strong and for everyone who pays the price several Huns will do likewise. Am awfully glad to get my card. There are lots of Bills over here and it is embarrassing to claim membership and not be able to show credentials."

In the Service of Old Glory

Below is the list of Mohave county men who have answered the nation's call and are serving in the various branches of the U. S. army and navy. The Mineral Wealth does not claim this list to be complete, but hopes that the names of all those in the service from Mohave county will appear under the above heading before long. Additional names will be added as they come for a favor upon the man in the service, his friends and relatives, and the Mineral Wealth by filling in the coupon below and sending it to this office.
